

OVER-IDENTIFICATION AND DISPROPORTIONALITY

The district has a goal of preventing the inappropriate over identification or disproportionate representation by race and ethnicity of children as children with disabilities, including children with disabilities with a particular impairment as described in 92 NAC 51-003.10.

“Child with a disability” means a child who has been verified as per 92 NAC 51-006 as a child with autism, a behavior disorder, deaf-blindness, a developmental delay, a hearing impairment including deafness, a mental handicap, multiple impairment, an orthopedic impairment, an other health impairment, a specific learning disability, a speech-language impairment, a traumatic brain injury or a visual impairment including blindness, who because of this impairment needs special education and related services. If, under 92 NAC 51-003.63, it is determined, through an appropriate evaluation under 92 NAC 51-006, that a child has one of the disabilities identified above, but only needs a related service and not special education, the child is not a child with a disability under this Chapter. If the related service required by the child is considered special education rather than a related service, the child would be determined to be a child with a disability.

NDE document “Supporting Document to Checklist of Required Special Education Policies, Procedures and practices for Part B of the IDEA” shall serve as an administrative procedure to this policy. The entire document can be found at <http://www.education.ne.gov/sped/regulations.html>.
