

STUDENT PROMOTION, RETENTION OR ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgement of the teachers and the administration, such exceptions are in the best educational interest of the students involved. Exceptions will always be made after prior notification and explanation to the student's parents, but the final decision will rest with school authorities.

When it becomes apparent a secondary student will be unable to meet the minimum credit requirements for the year, both the student and parents will be informed. Students who cannot demonstrate proficiency at their grade levels will also be considered for retention. Teachers must notify the administration of these students, make a recommendation to the administration concerning their promotion or retention, and hold a conference with parents.

The administration may require remediation as a condition of promotion to the next grade level. Such remediation may include, but shall not necessarily be limited to, a mandatory summer school program focused on the areas of deficiency or other such alternatives conducted by the district outside of the regular school day.

The parents will be requested to indicate in writing their agreement or disagreement with the recommendation for retention. The final decision will rest with the school administration. Parents may request retention if they believe it to be in the best interest of their student. The principal will confer with the teachers and parents to determine appropriate action.

More than one retention during the elementary school years will receive special consideration and require the approval of the superintendent based on the recommendation of the principal, teacher and parent or guardian.

Students with exceptional talents may, with the permission of the administration and parents, take classes beyond their current grade level. Enrichment opportunities outside the school district may be allowed when they do not conflict with the school district's graduation requirements. Acceleration ahead in a grade level should be approached with caution and should only occur with the approval from the administration and the parent or guardian.
